SUMMARY

AI-native operator who deploys AI and automation into users' workflows to solve ambiguous, high-stakes problems, from founding and scaling a services company to embedding agentic systems across JPMorgan's credit-analyst program. Pairs hands-on building with enablement: trains non-technical users, drives adoption, and turns successful pilots into standard practice.

PROFESSIONAL EXPERIENCE

JPMORGAN CHASE & CO. | Miami, FL

June 2025 – Present

Technology & Disruptive Commerce Credit Analyst, Commercial & Investment Bank

- Independently built an AI credit analyst with 10 specialized workflows that ingest fragmented Excel, PDF, and lender materials into standardized credit outputs, including financial spreading, model analysis, discrepancy checks, commentary, KPI dashboards, and senior-management materials, saving a measured 12–15 hours per deal
- Proactively drove adoption across approximately 100 analysts in Technology, Healthcare, and Life Sciences, with additional usage by vice presidents and executive directors, through live trainings, onboarding, reusable templates, and internal documentation
- Partnered with Managing Directors and senior credit leaders to redesign manual workflows using AI across recurring reporting, portfolio tracking, compliance processes, and preparation of executive updates, eliminating 10+ hours of recurring manual work
- Ranked in the top 5% of AI users across JPMorgan's ~300,000 employees and top two within the team; selected for the Tech Champions Subject Matter Expert team, with prompts and workflows incorporated into the firmwide AI resource library
- Built an AI weekly industry intelligence workflow for Climate Tech that synthesizes sector developments, credit and banking trends, middle-market company activity, and the impact of AI on the industry; created a reusable template now being rolled out across additional verticals and presented to executive directors
- Executed underwriting, diligence, and transaction processes across 30 live transactions and 40+ deal screenings for technology and disruptive-commerce companies

MERCOR | AI model training & evaluation company | Remote

January 2026 – March 2026

Finance Domain Expert, AI Training Data

- Engineered multi-step prompts using 10-K/10-Q data to train AI models on cross-document reasoning, numerical analysis, and chart interpretation; diagnosed failure patterns to improve output consistency

JPMORGAN CHASE & CO. | Miami, FL

June 2024 – August 2024

Middle Market Banking & Specialized Industries Program Summer Analyst

- Created a credit recommendation framework by structuring complex data into clear, actionable decision tools
- Developed a targeted outreach strategy identifying 30+ potential clients using data-driven segmentation

WECLEAN | Self-founded cleaning-services business | St. Louis, MO

December 2022 – September 2023

Founder & CEO

- Built and scaled a service business from 0 to 100+ customers, owning operations, growth, customer acquisition, and service delivery
- Architected end-to-end operating systems for scheduling, quality control, and customer management
- Identified a platform-leakage gap and redesigned the scheduling workflow to eliminate it while improving customer experience; built and managed a team of 5

WORKLIK | Early-stage B2B tech startup | Tel Aviv, Israel

June 2023 – August 2023

Strategy & Operations Analyst

- Analyzed datasets across 200+ companies to identify pricing inefficiencies and revenue opportunities; supported pricing and go-to-market strategy through competitor and internal analysis

SELECTED AI & AUTOMATION PROJECTS

- Engineered an automated market intelligence platform (Claude Code, APIs, Zapier) that monitors industry news, summarizes developments, and distributes personalized daily briefings, saving 5 hrs/week
- Developed an AI job sourcing system that scrapes LinkedIn and job boards against experience, location, and salary preferences, surfaces networking contacts, and emails top opportunities to a live HTML tracker, saving 15 hrs/week
- Built and launched a full-stack web platform for WeClean where customers sign up for services and message cleaning staff

EDUCATION

WASHINGTON UNIVERSITY, OLIN BUSINESS SCHOOL | St. Louis, MO

May 2025

Bachelor of Science in Business Administration — Financial Engineering & Entrepreneurship

- GPA: 3.92 / 4.00 — Graduated Magna Cum Laude; Dean's List
